JERI

Calumet 1978

*H. L. Bourgeois High School
Gray, La.*

When H.L.B. opened its doors for the 1977-78 school year, over 1400 "Braves" poured in. Getting lost in the crowd, being absorbed by the mass of fellow students around us, would have been easy. The challenge lay in finding a way to emerge from the crowd.

Most of us found out more about ourselves during this eventful year, found special people staring back at us from our mirrors. We participated; we shared; we excelled. We were special — all of us together, each of us as individuals.

PARTICIPATING

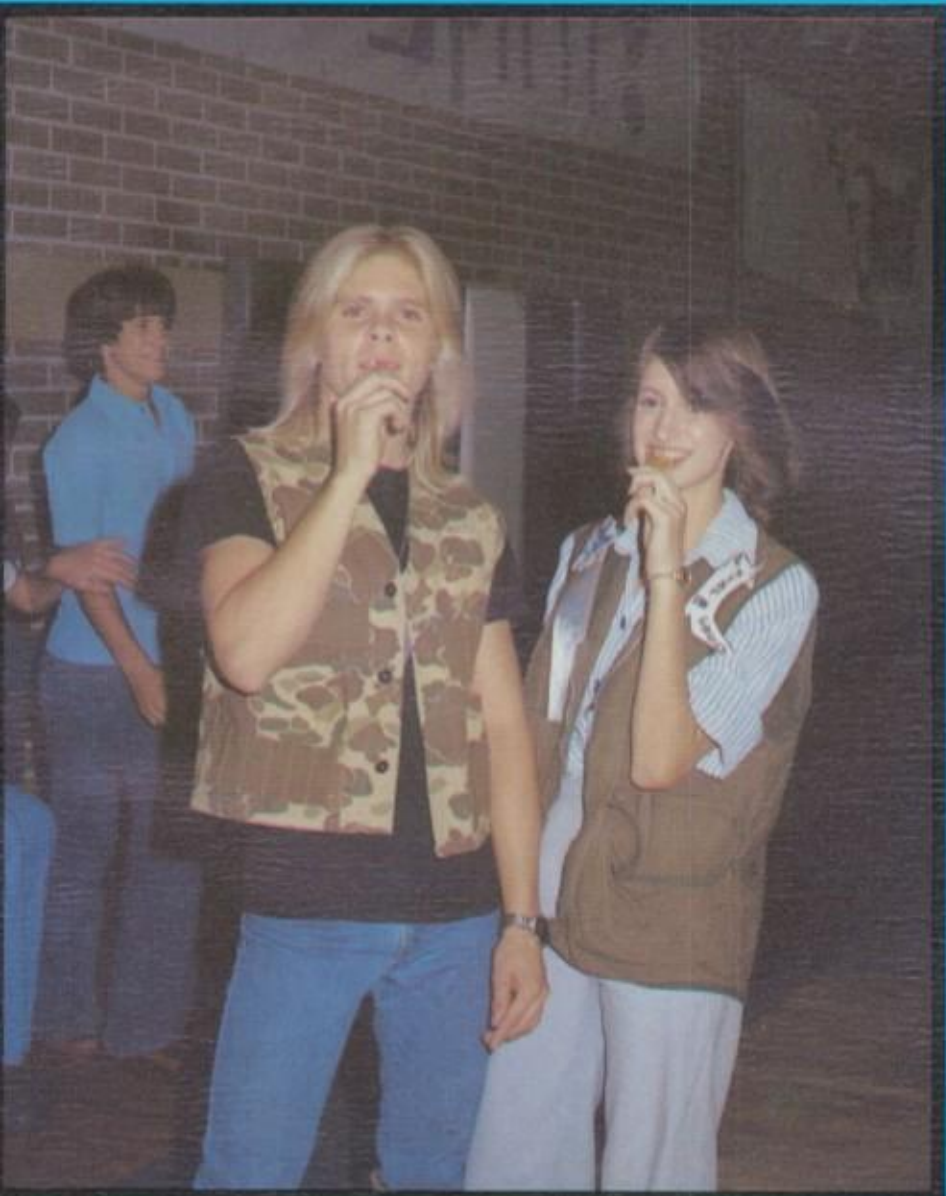

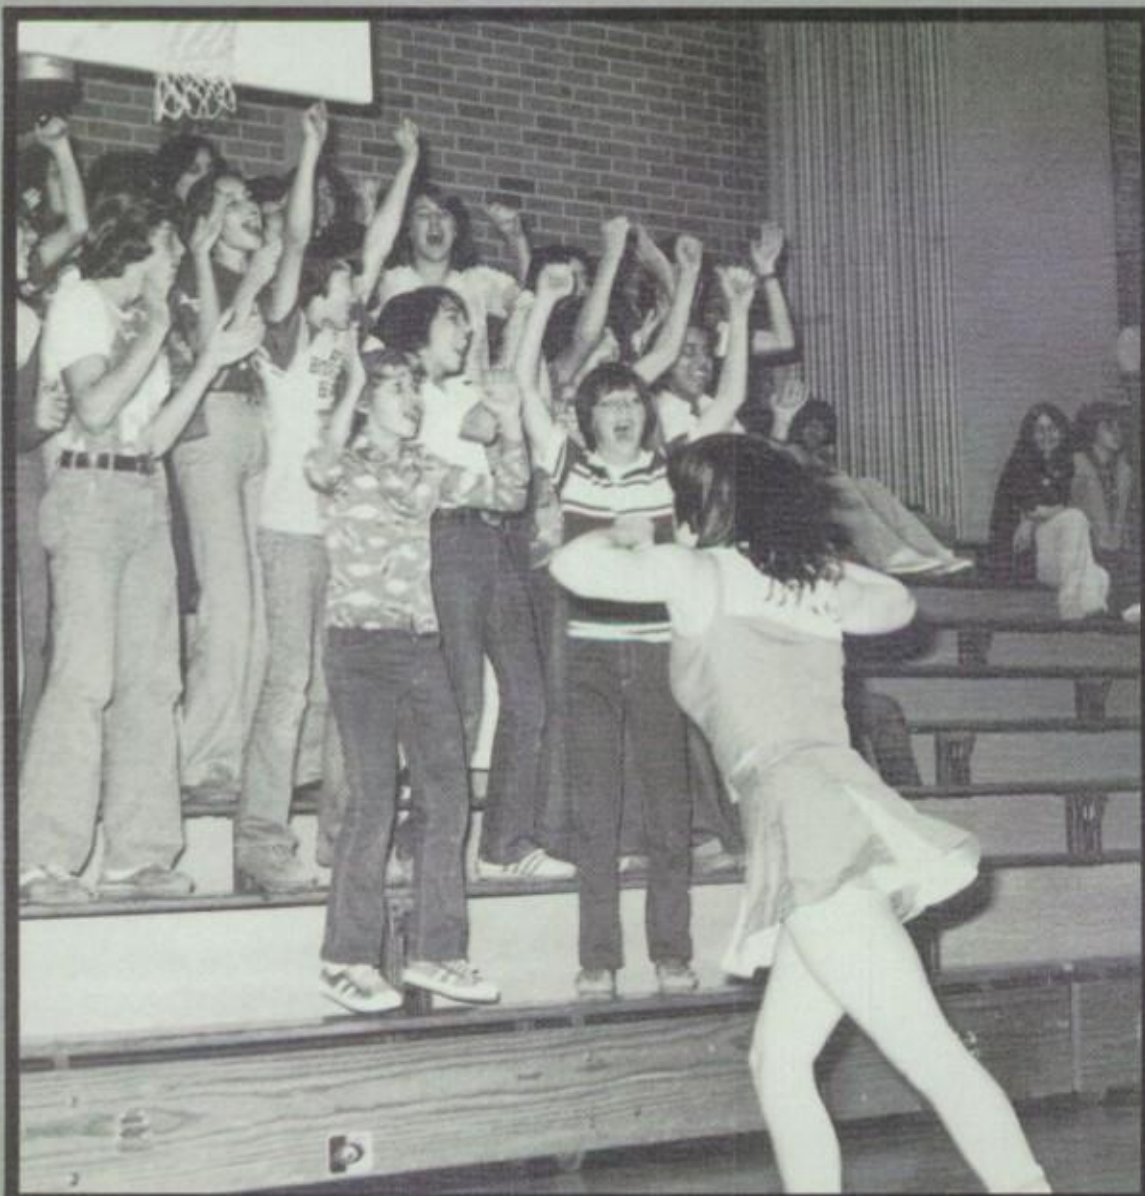

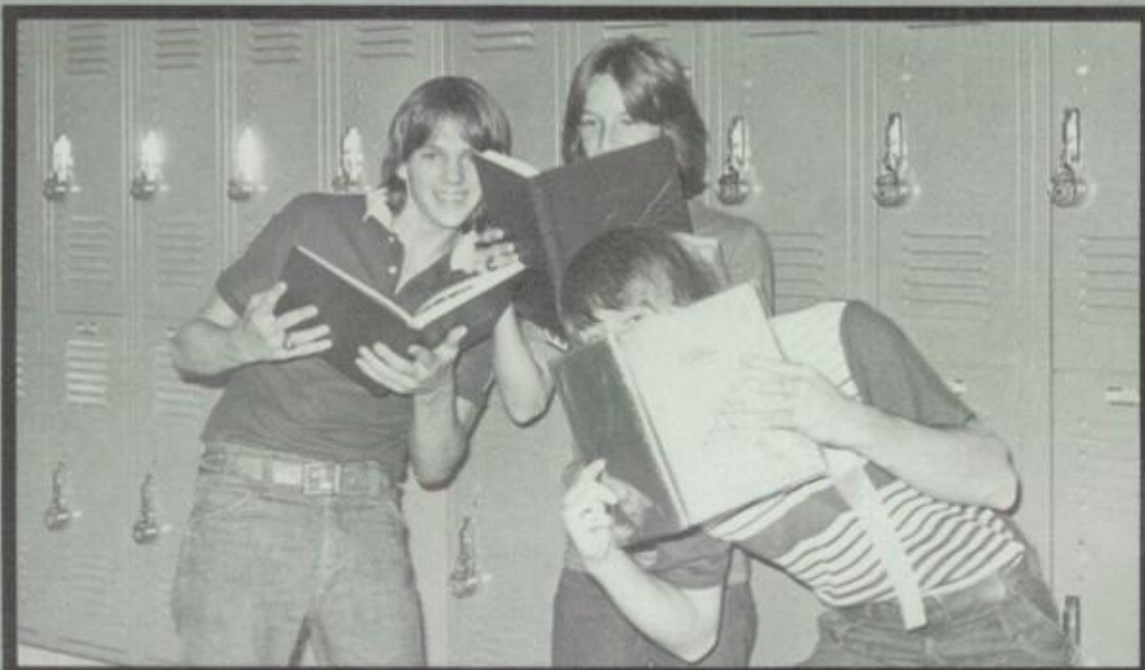

H. L. Bourgeois is known for its participating students. Everyone gets involved in school activities in one way or another, whether it's just during class, or attending sports events. Participation is the key to a successful school year.

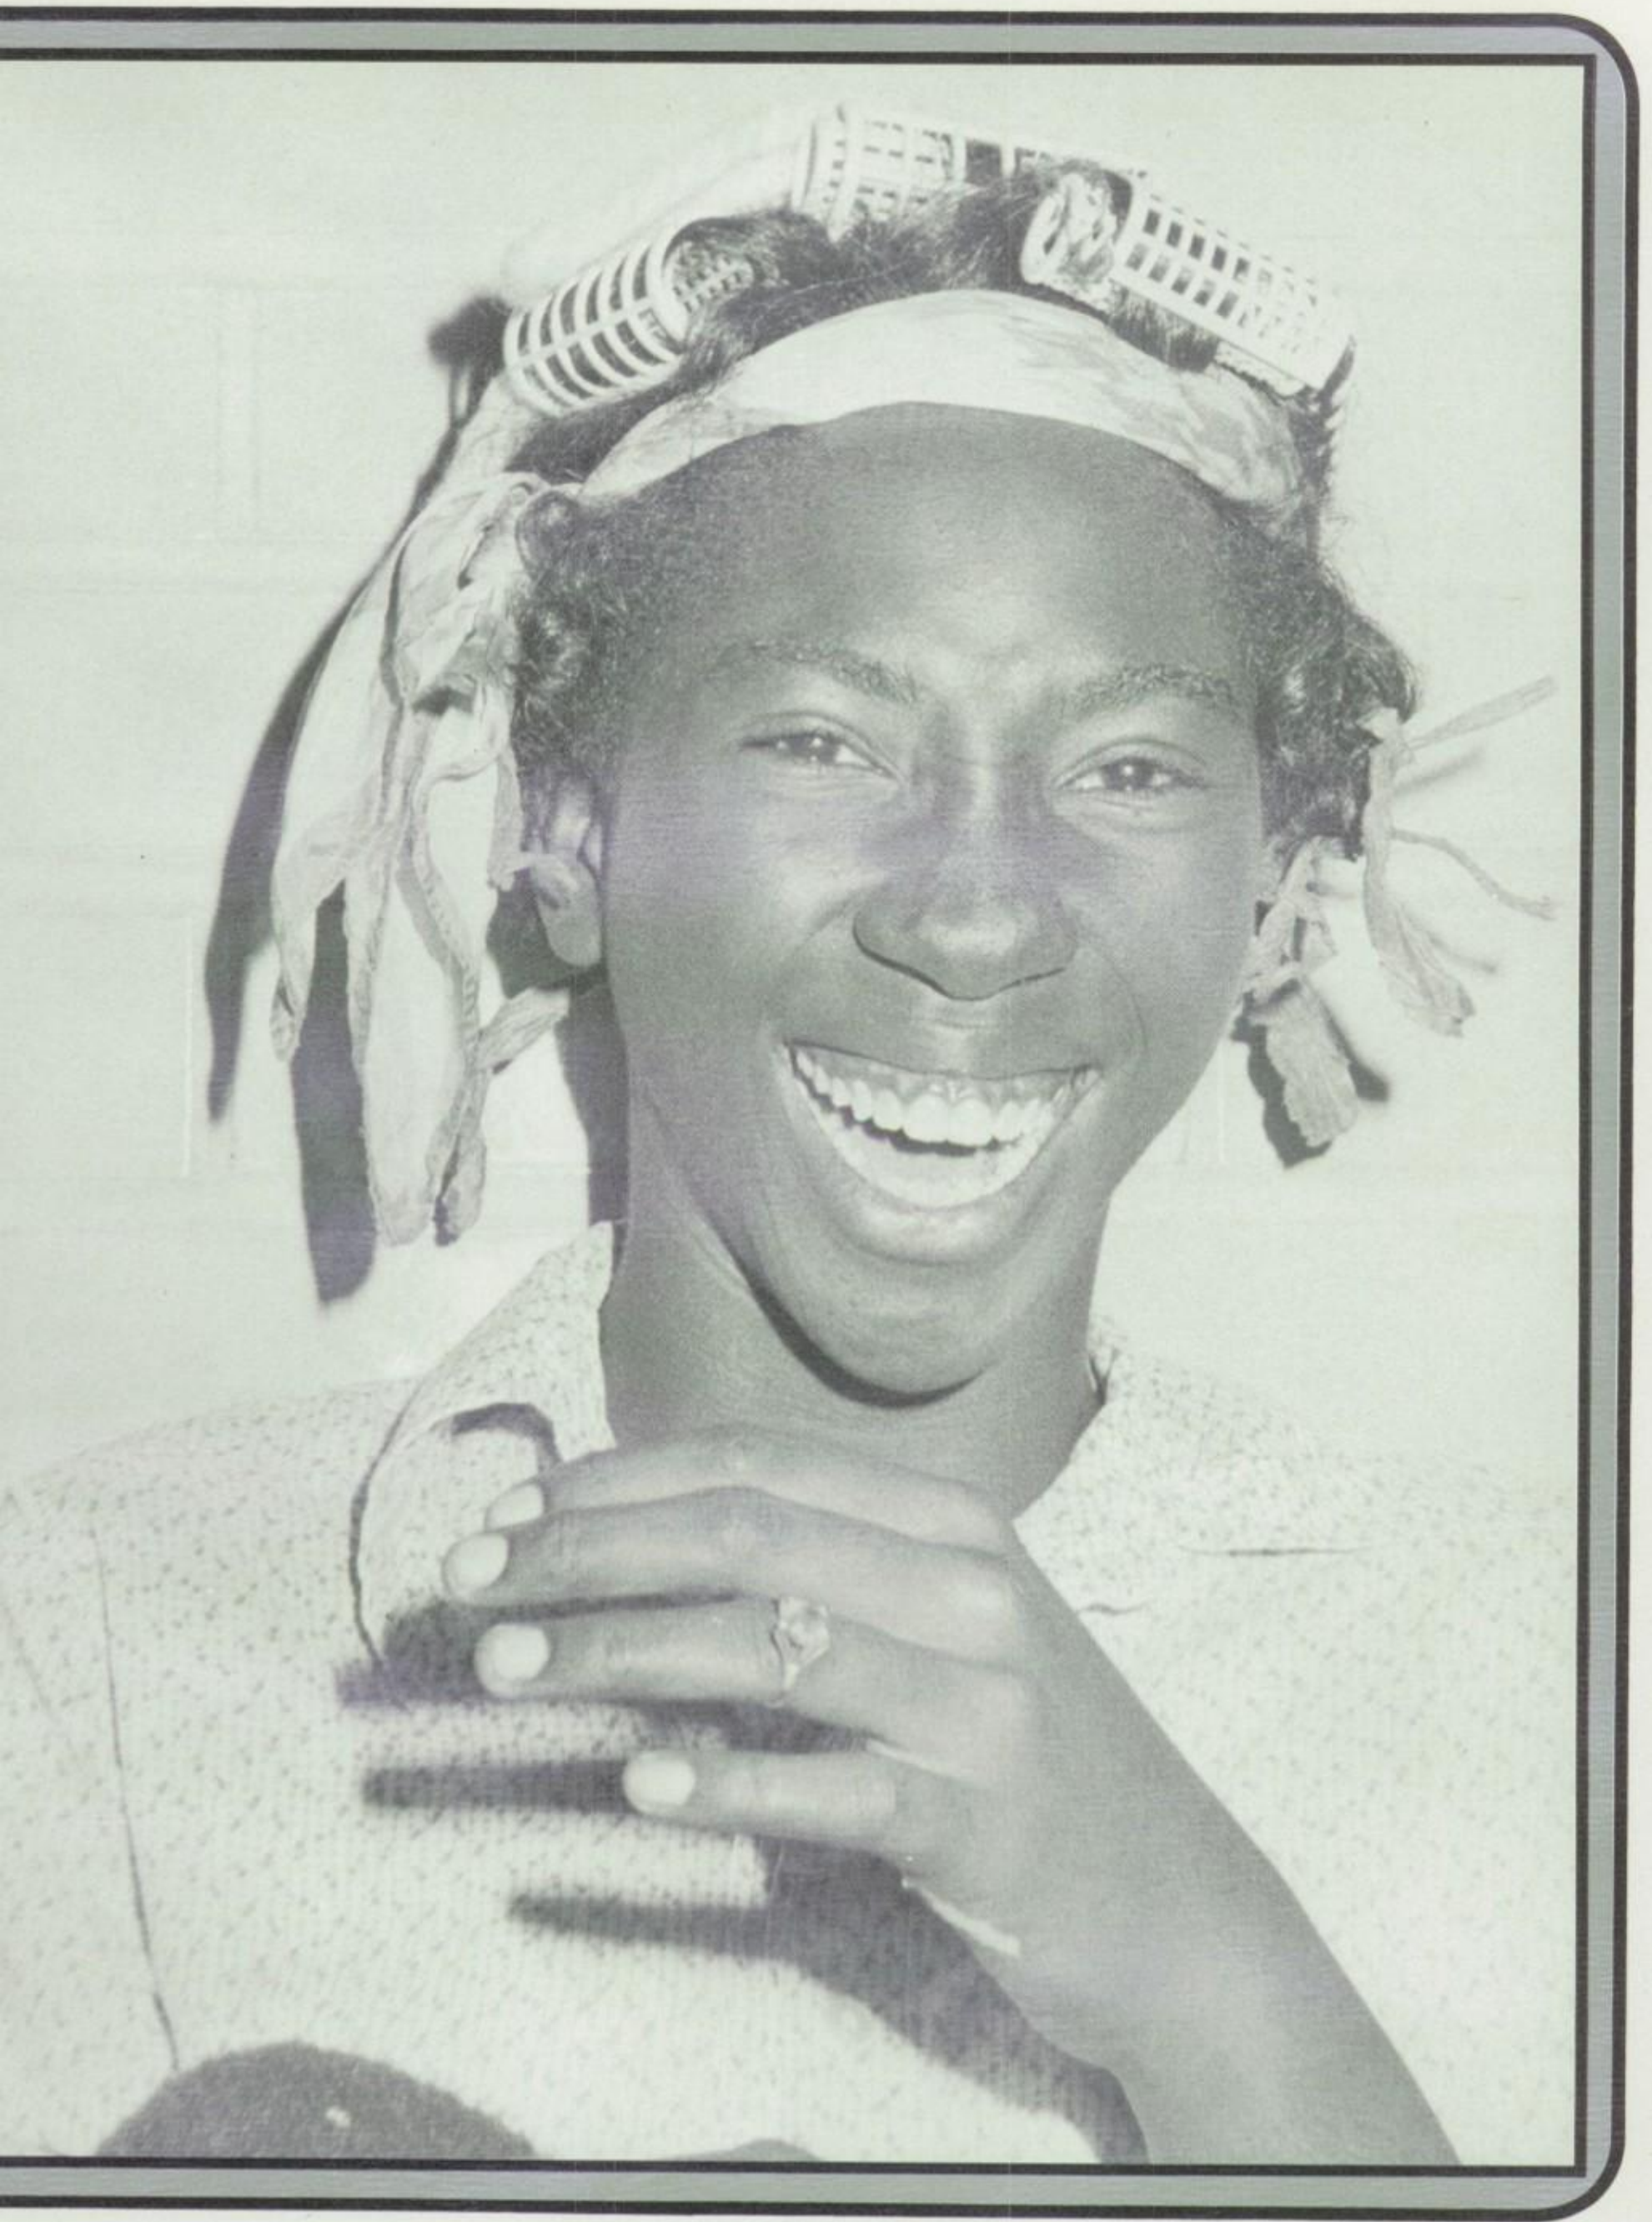

SHARINING

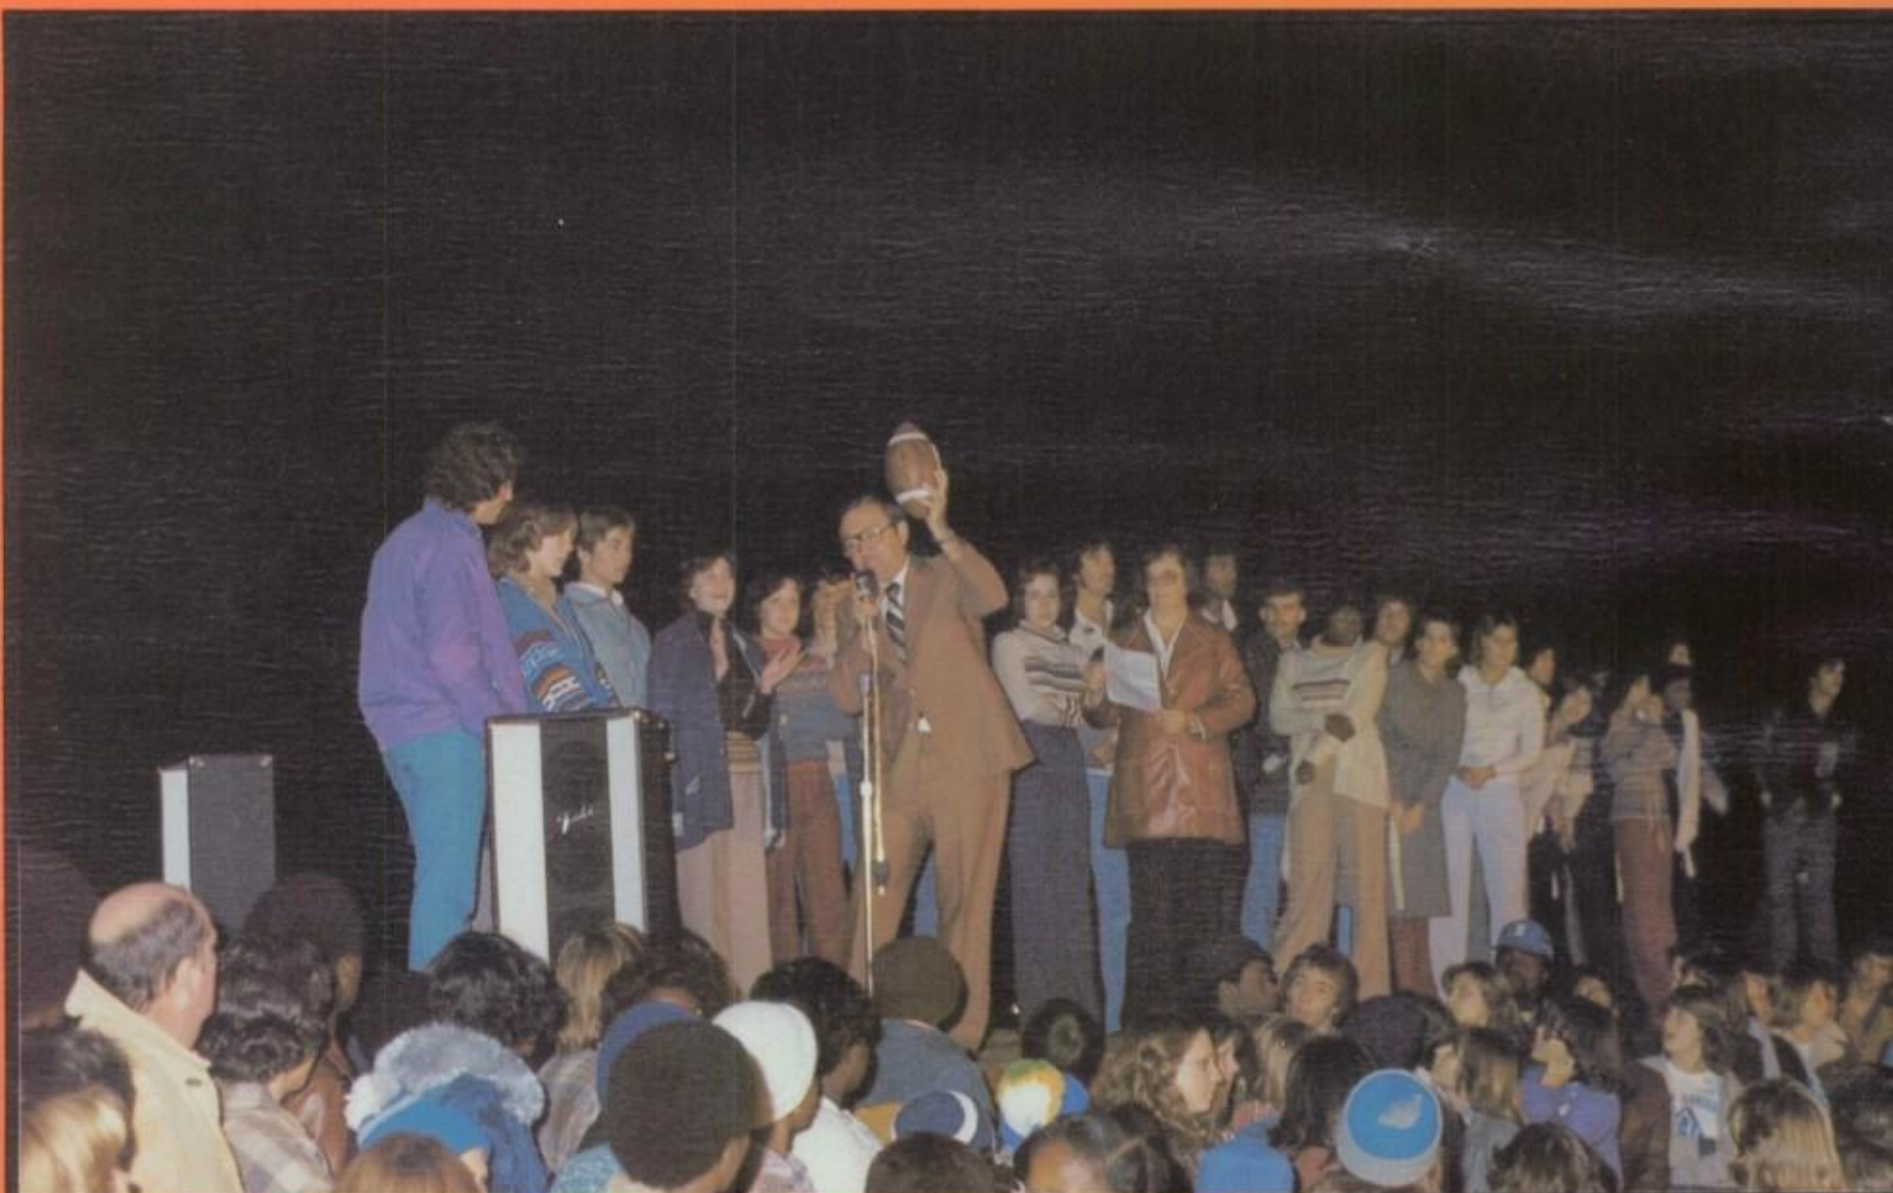

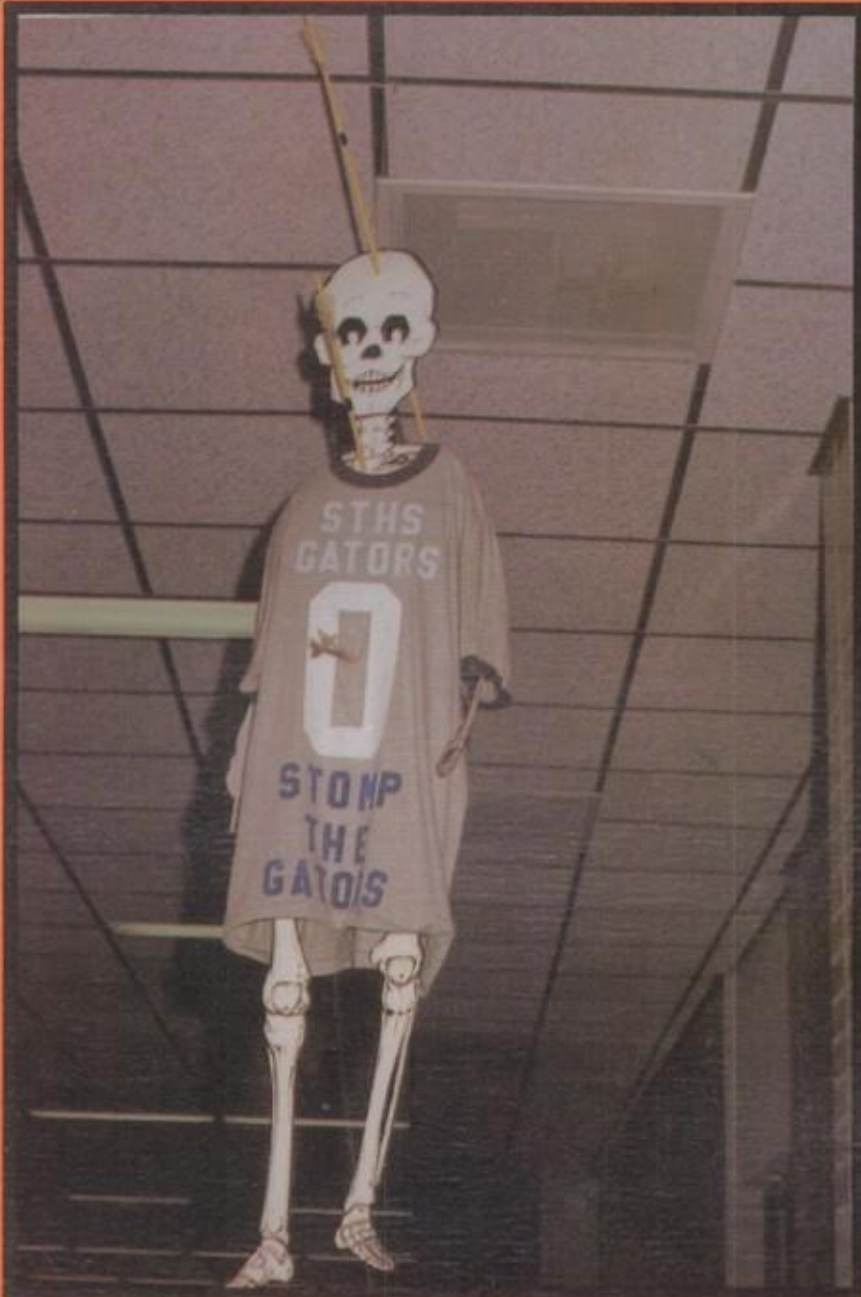

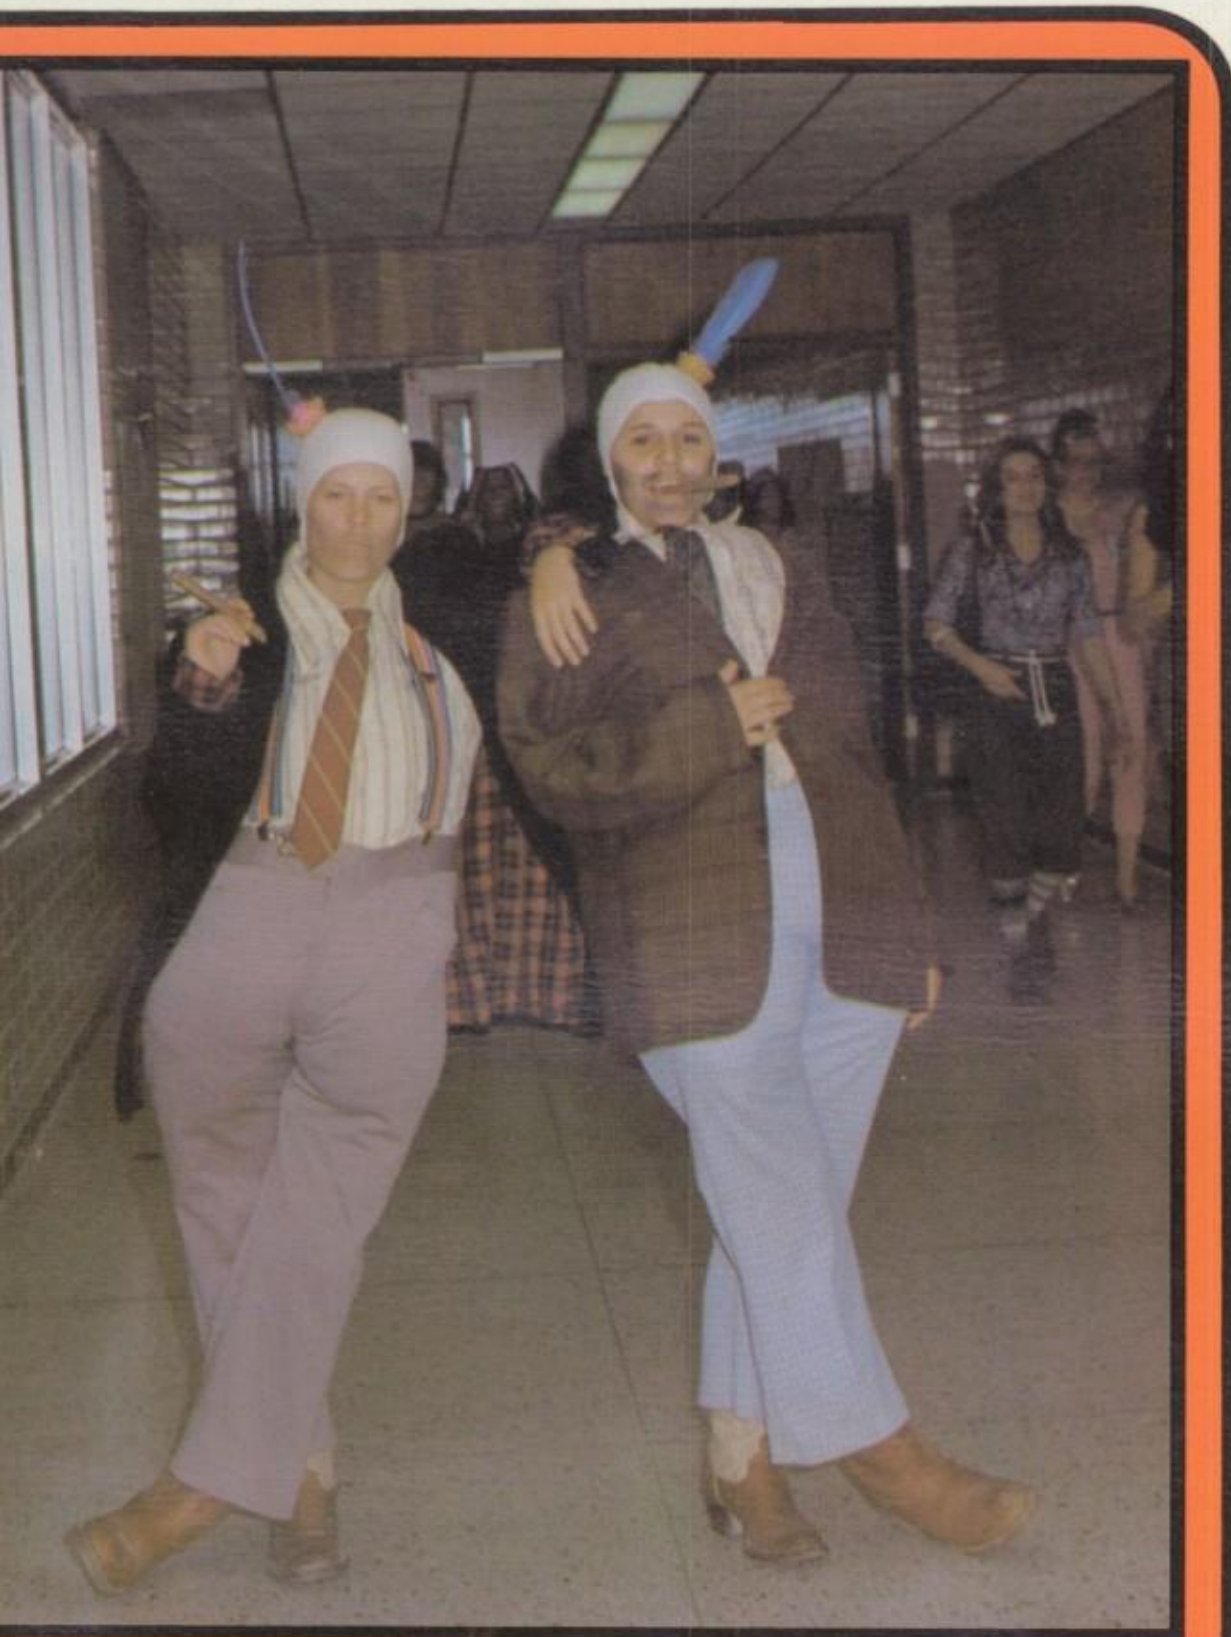

Sharing plays an important role in our school lives. We all share our ideas and feelings with one another. We share the fun times and sometimes the bad ones. But the most important thing we share at Bourgeois is our friendship.

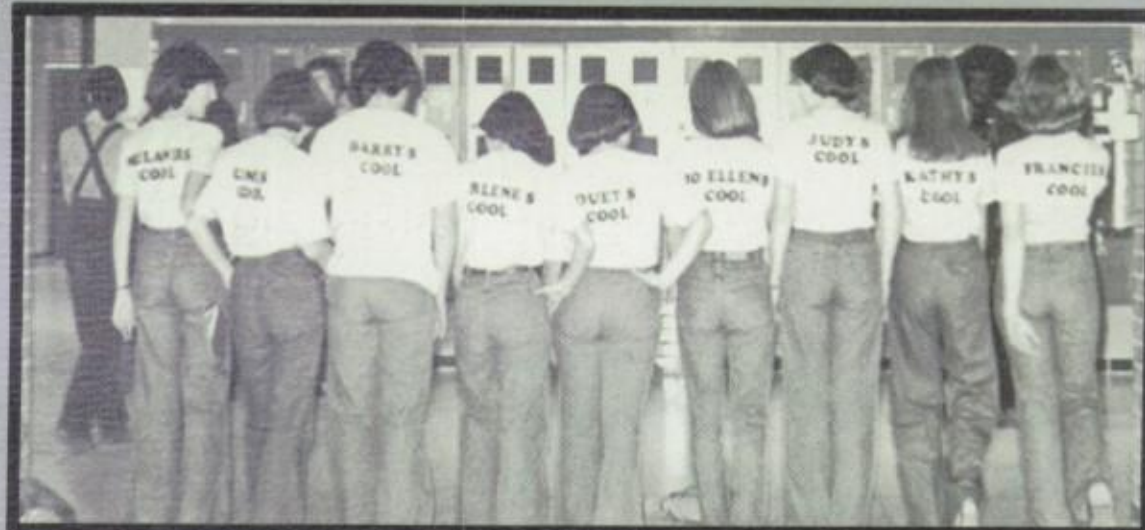

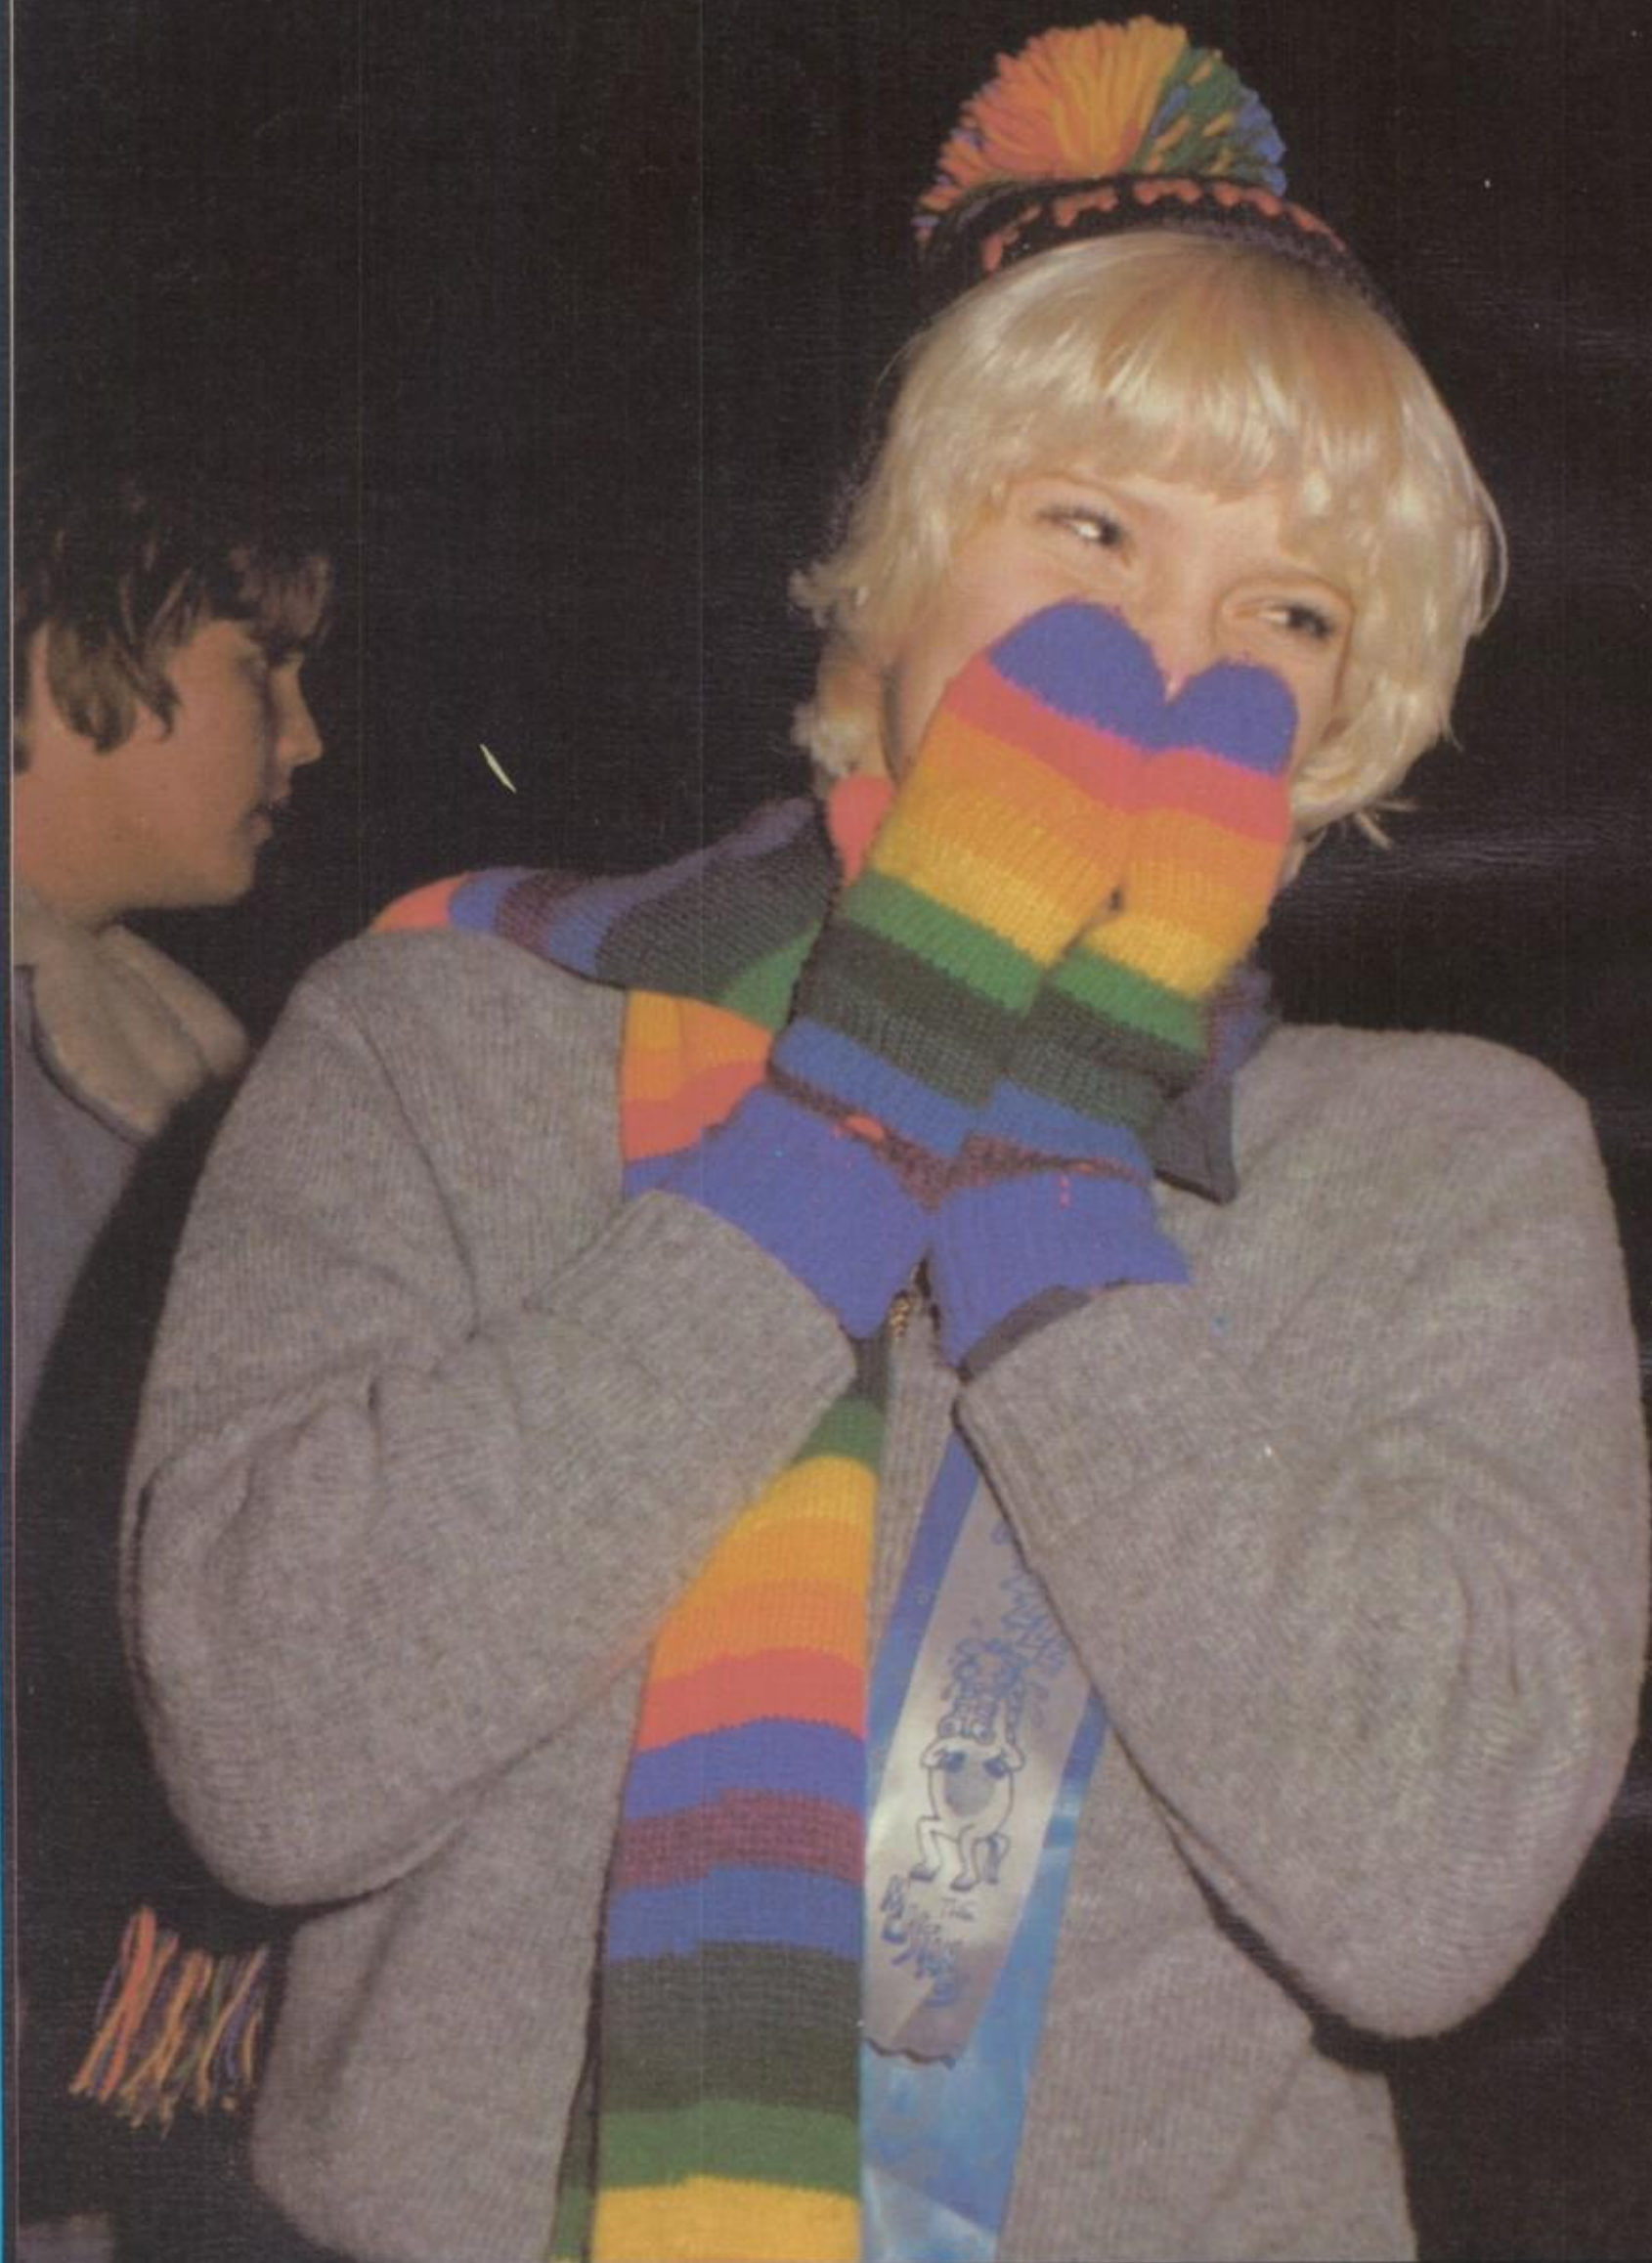

EXCELLING

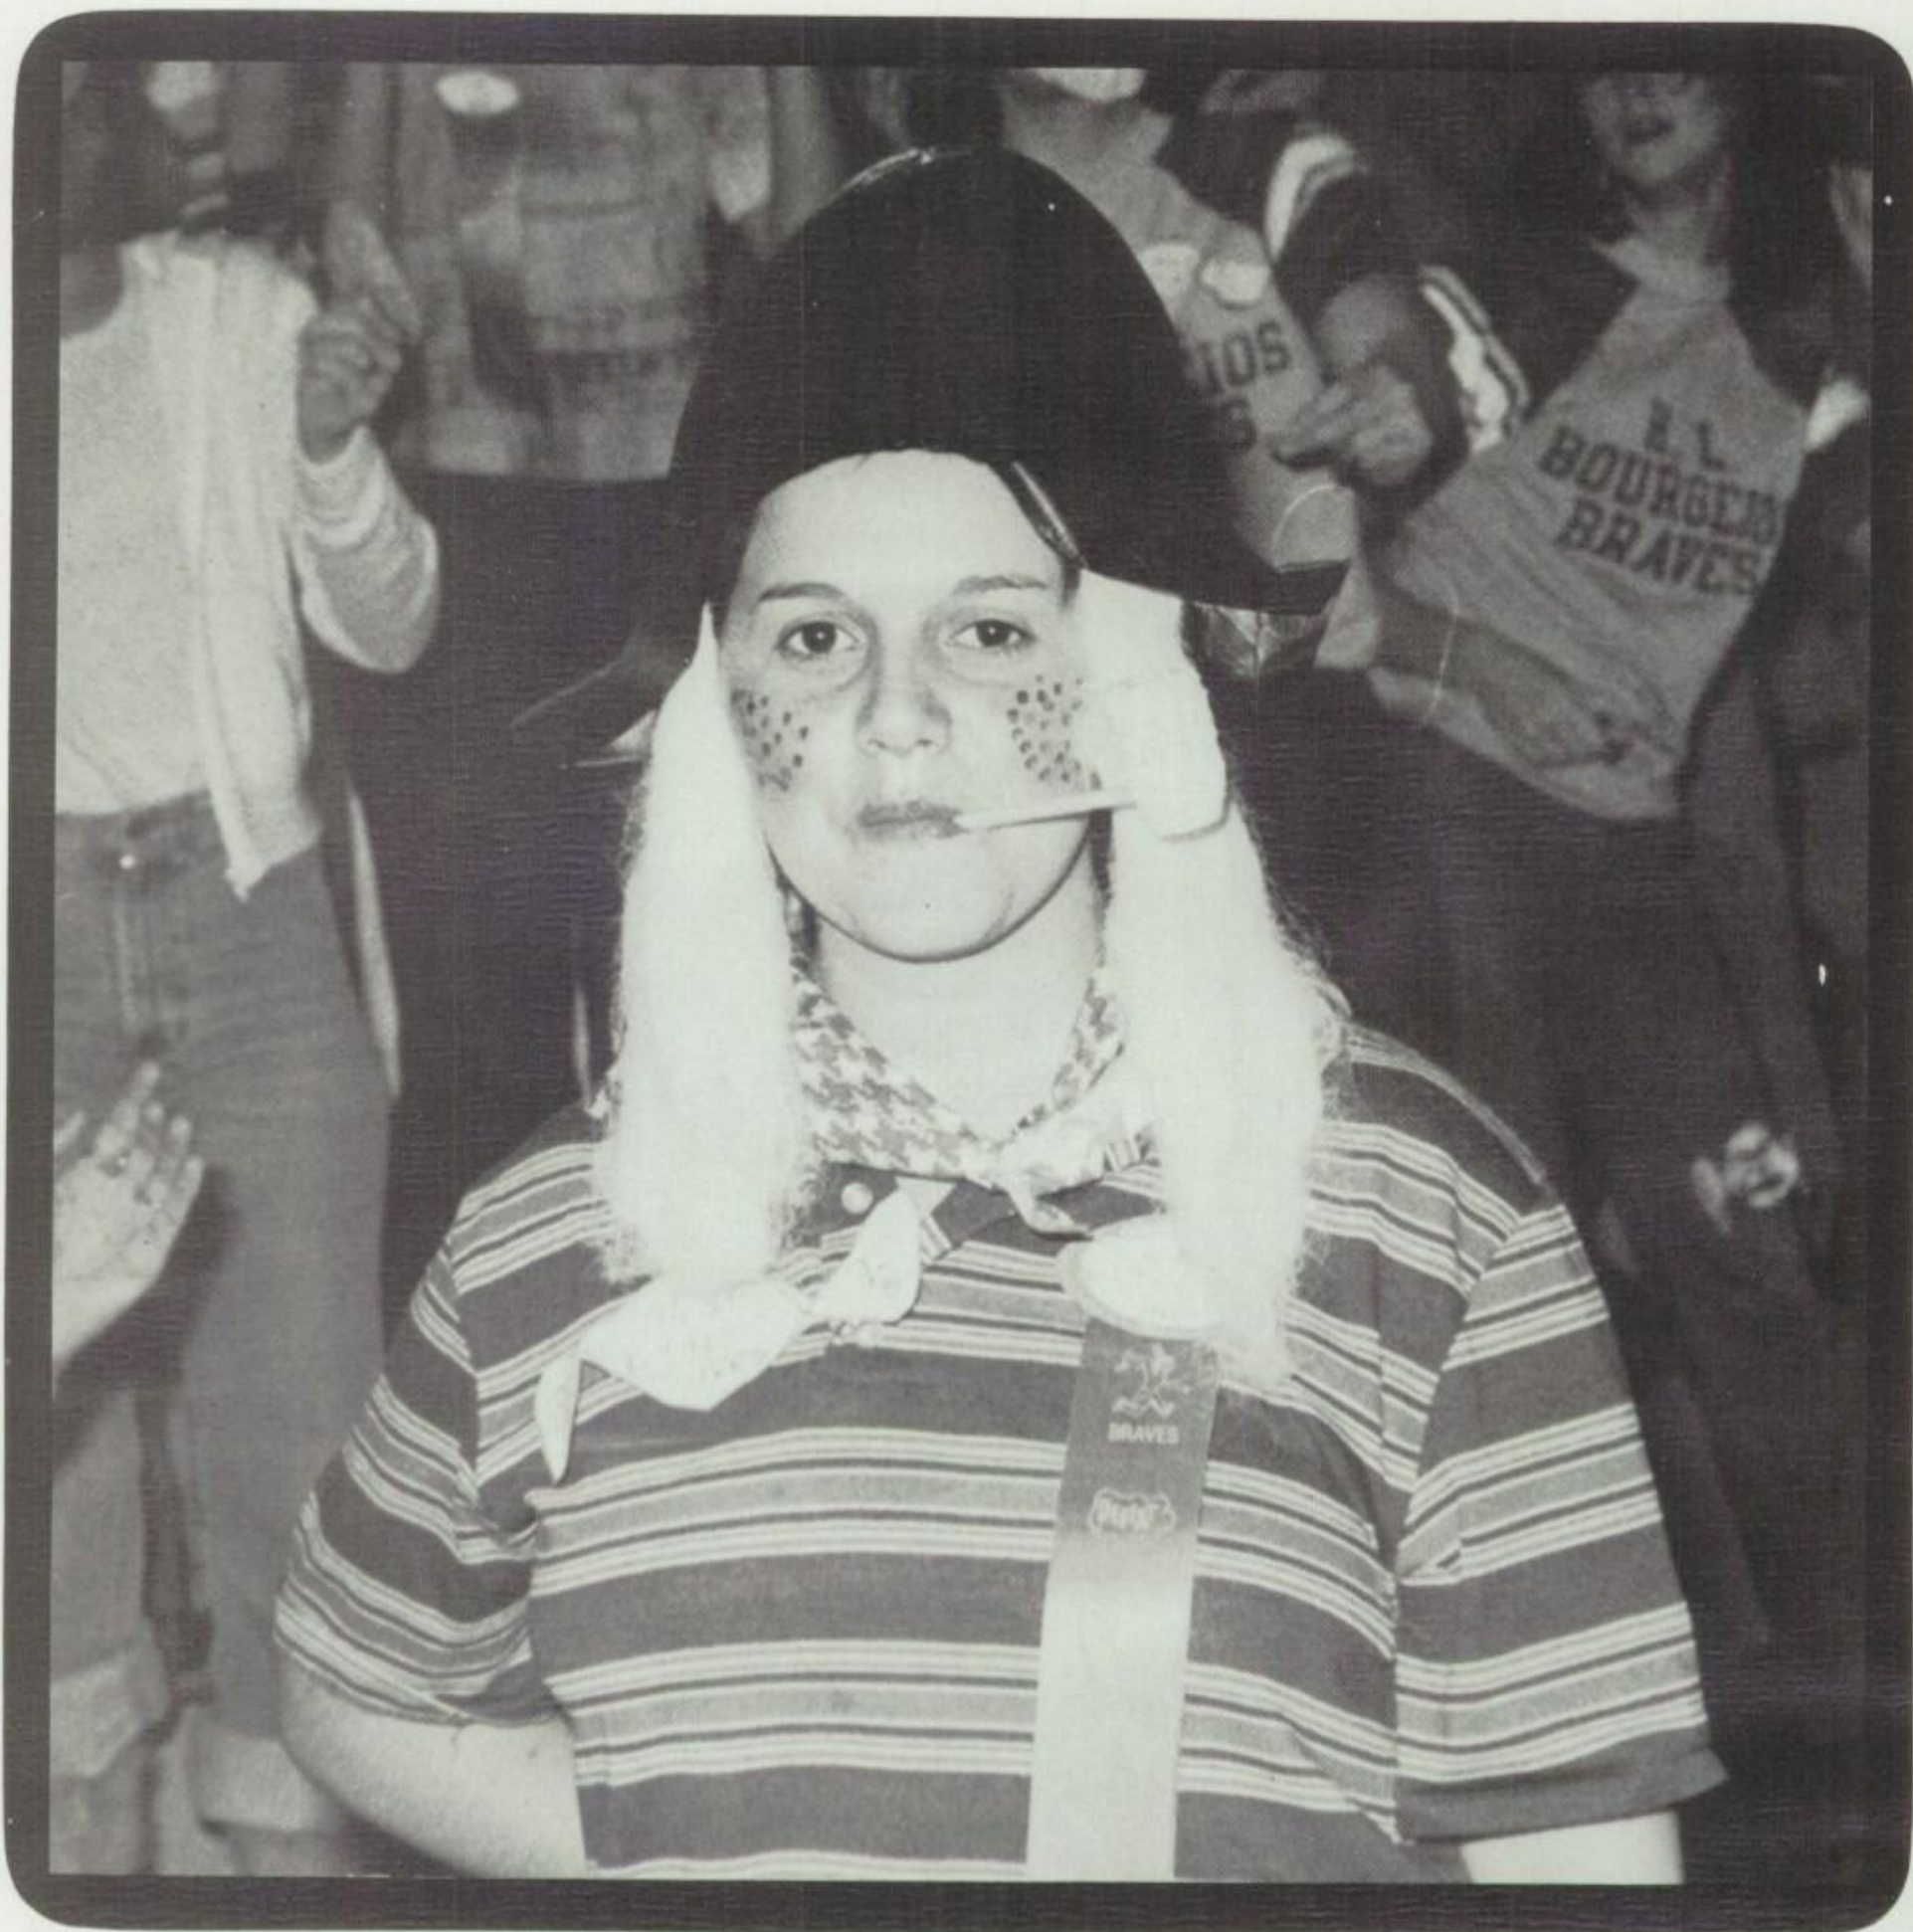

Being a part of H. L. Bourgeois gives everyone here a chance to excel in one way or another. Even though a student is not a professional athlete or the most popular person in school, this does not mean that he has not accomplished anything.

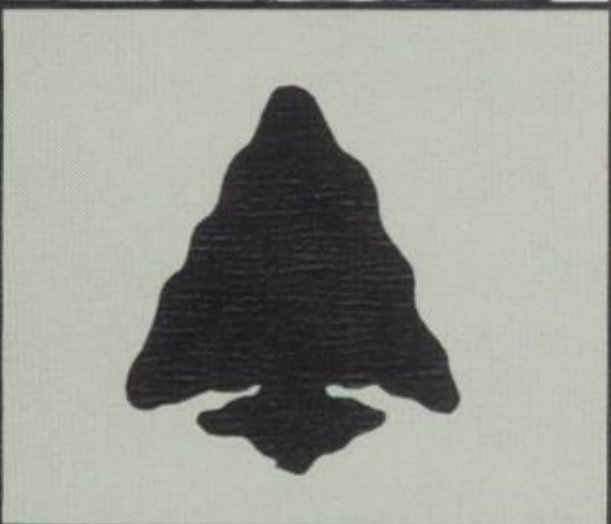

Through participating, sharing, and excelling at Bourgeois, we have accomplished many things. We have learned to work together and to share our dreams with one another.

Top right: **Mr. L. P. Bordelon III**, principal. Lower right: **Mr. Willard Guidry**, assistant principal. Lower left: **Mr. Frank Kidd**, assistant principal.

Guidance

Not pictured in panel sections are (top, left to right) Gilbert Nelson, Tanya Ruffin, Wendell Bonds, Lynn Duplantis, Thomas Snyder, Christine Glynn; (center left) Anderson Robinson; (lower left) Timothy Johnson; (right) Michael Calder. Juniors not pictured are Ricky Antoine, Curtis Brown, Jennifer Hewitt, Rose Patrick, and Marc Rhodes.

The seniors worked hard to make their last year of high school a meaningful one. The class was responsible for Homecoming week activities. Top: Rick Davis, president; Bill Dumez, vice-president; Sandra Bergeron, secretary; Judy Bergeron, treasurer. Bottom: Mr. Hebert, class sponsor.

We Have Today

Participating in this graduation ceremony tonight was a goal, that, for most of us, always seemed ages away. The years, the months, the days leading up to tonight have passed, of course, all too quickly, and here we are. We have achieved something that we have sought for a long time and that at times seemed almost impossible.

The words of the motto chosen by this class emphasize the importance of what is happening here tonight: "We have no yesterdays; time took them away. Tomorrow may not be, but we have today."

Though our yesterdays are indeed gone forever, we have countless memories to cling to. We remember with love the parents who nurtured us and the friends who have stood by us. We remember with gratitude the community which helped us to grow as citizens and the schools which educated us and made us whole.

The memories freshest in our minds, of course, are those of this past school year, a senior year filled with studying, with sports, with participation in dances and club activities, and a thousand other things that helped to mold us into the well-prepared young citizens who will be graduated here tonight.

Moving from the past with a firm grasp on our memories, we face a future filled with uncertainties. International difficulties, the neutron bomb, inflation, the energy crisis, corruption in government, and unemployment are only a few of the dark clouds which hover over our horizons and cast shadows over our dreams.

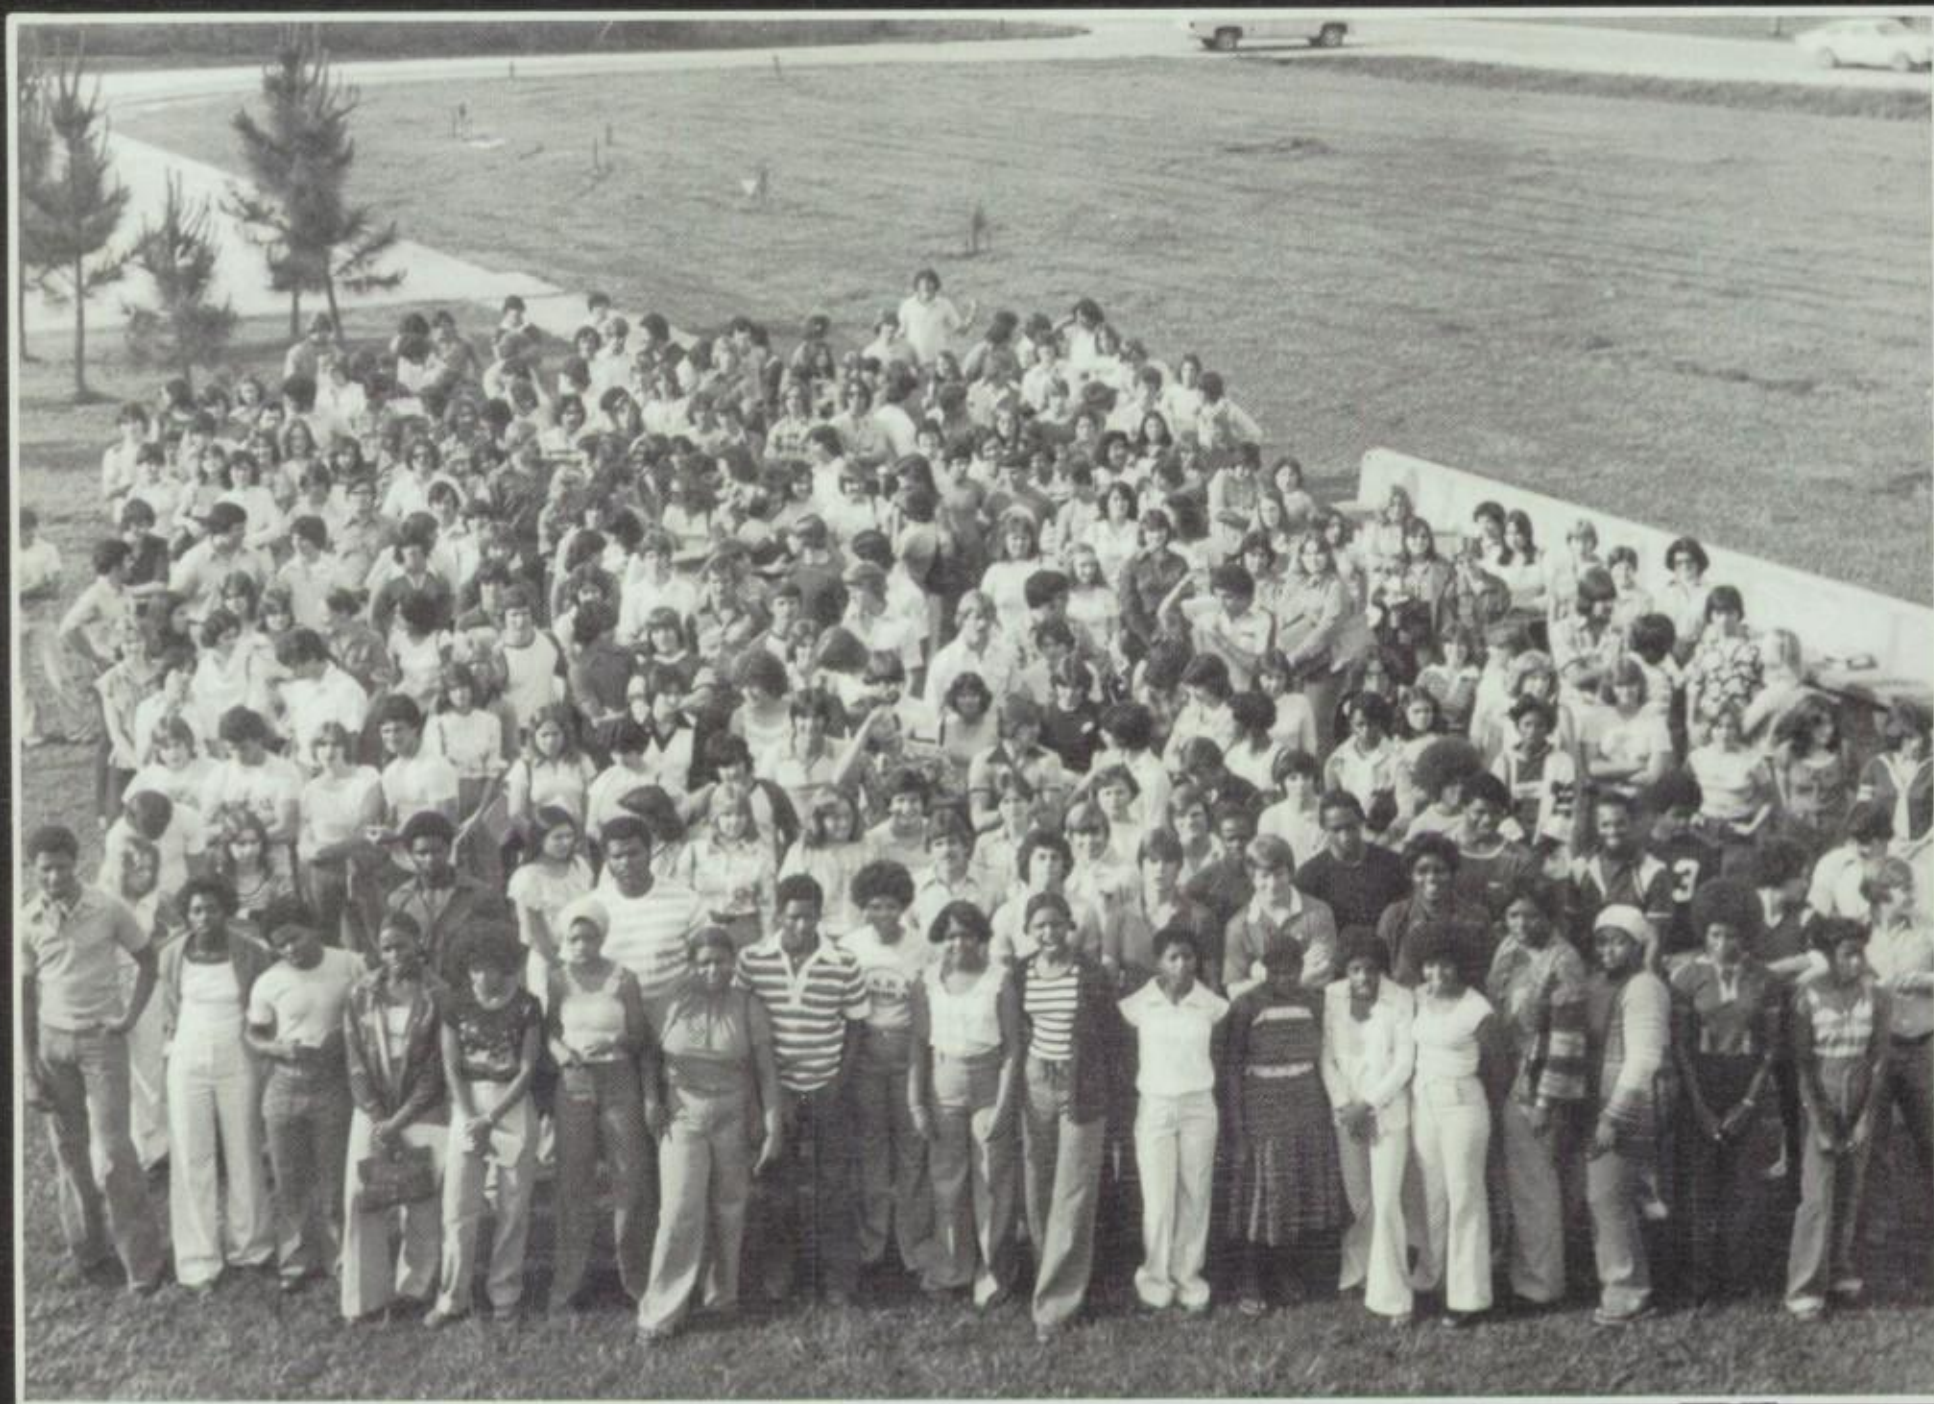

To realistically appraise our chances in this world, then we must look about us and take stock of our strengths. As our motto says, "We have today" and today includes this ceremony tonight signifying the achievement of a meaningful milestone in our lives. Complementing this educational achievement, we have several other qualities which when applied to the challenge before us, will bring us success. We have youthful enthusiasm; we have a tremendous sense of pride in ourselves and our abilities; we have determination and strength of character; and we have an unquenchable thirst for a better world and a better life for the inhabitants of that world.

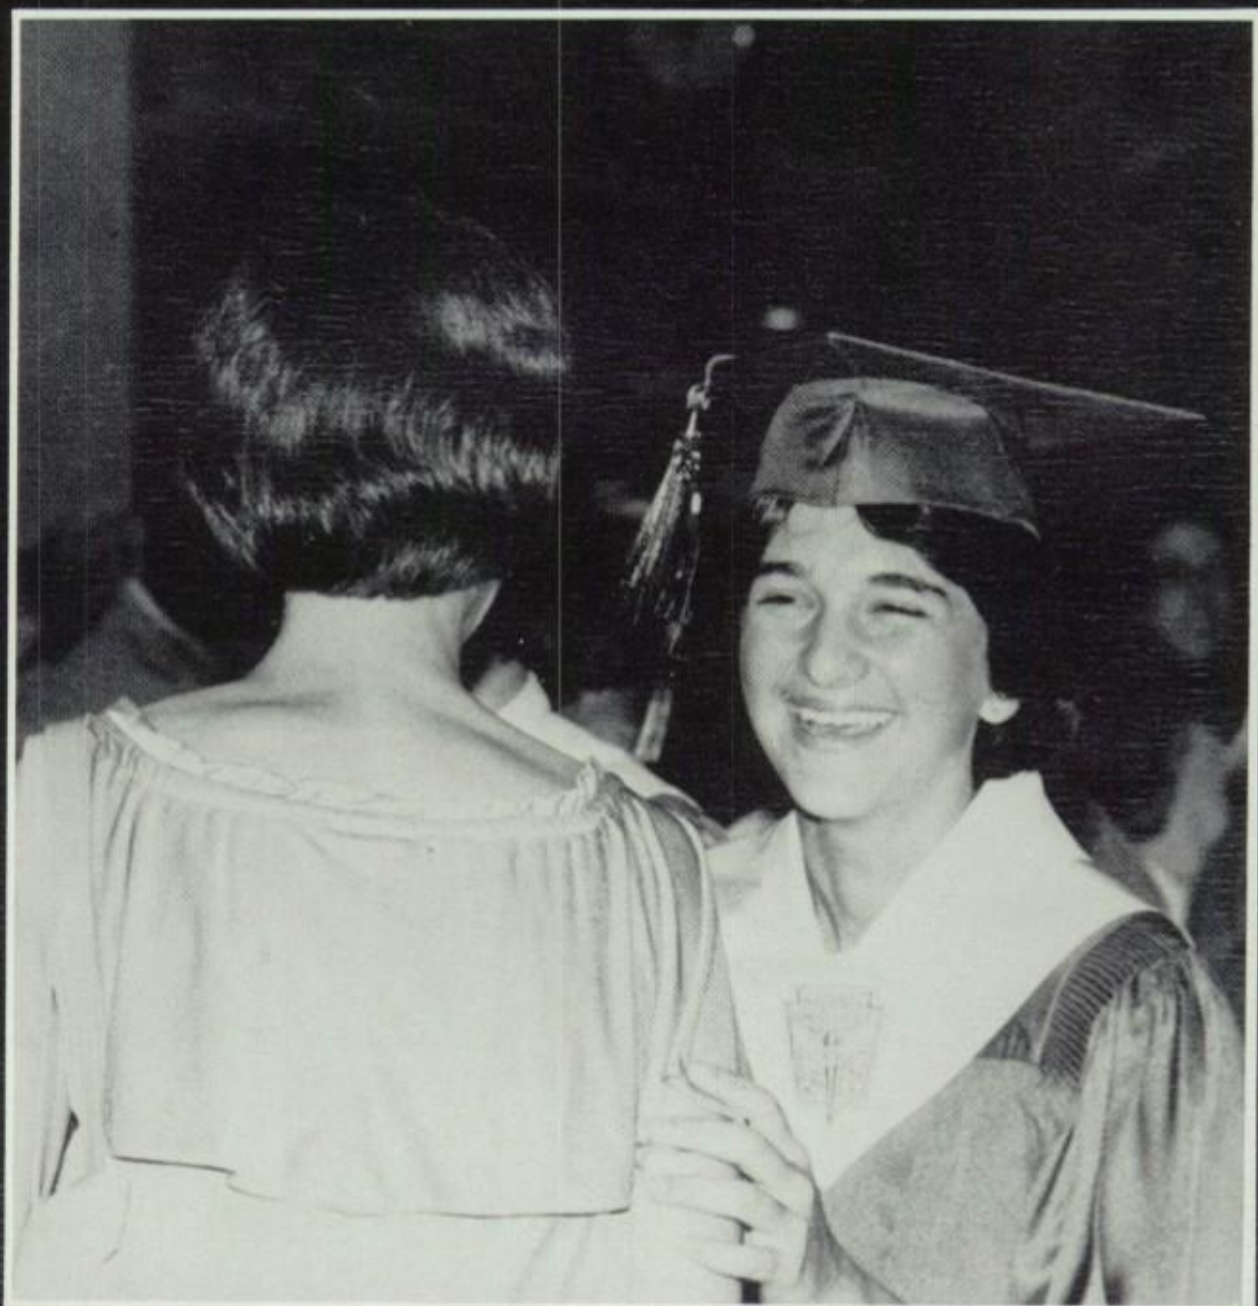

To our parents, teachers, and friends gathered here tonight we offer an invitation and a promise. We invite you to share with us the joy and sense of accomplishment we feel as proud graduates of a proud institution. And we offer you the promise that throughout our lives, we will strive to make you proud of us and our accomplishments.

It won't be easy for us to say good-bye to this school, to our friends. But we have so much more to learn about the world and about ourselves and it's time to get started. I only know that wherever we go, whatever we do, the days we've spent right here will always be a really special part of our lives.

The Bank

How many times have you heard someone say, "I'm going to the bank" or "I'll meet you at the bank." We've noticed that's what our friends and customers call us.

The Bank. We like the sound of it. It's like calling a close friend by his first name. We value friendship; we know it's a delicate thing. It has to be pampered. It has to be protected. At The Bank, we're doing just that. Every way we can. If this sounds good to you, stop by and let's get acquainted.

Just think of us as an old friend and call us by our first name.

Many things have happened during the 1977-78 school year. Jamboree, a great homecoming victory, pep rallies, the talent show, Carnival — all these exciting moments no one would ever want to forget. The staff and myself have devoted much of our time, put forth our best effort, but most of all added the special touch of the '78 spirit and love we

had for one another in preparing this edition of the Calumet for you. Calumet, an Indian ceremonial peacepipe which symbolizes unity and peace, stands above all in Indian symbolism because we feel it is the true meaning of H. L. Bourgeois. I hope this Memento of the 1977-78 school year will mean as much to you in the future as it did to all of those involved in putting this edition together.

I give my special thanks to everyone who helped in getting this book together. I also would like to give thanks to the guidance counselors, the office, the student body (which I couldn't do without), and the staff, but most of all Mr. Raphael Songe for the time, effort, and tolerance he has given to us this year.
